PACKING TIPS

Here are some helpful guidelines from American Airlines:

<https://www.aa.com/i18n/travelInformation/baggage/main.jsp> ...essentially.....

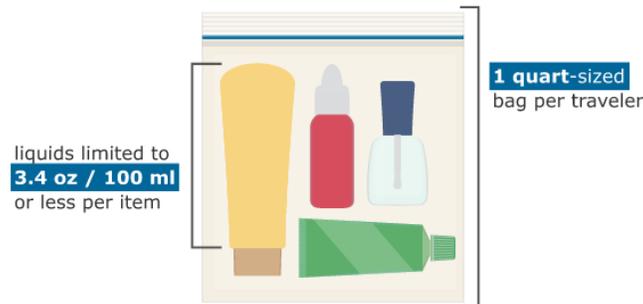

Free: 1 carry-on *and* **1** personal item

Your personal item must be smaller than your carry-on baggage (like a purse, smaller backpack, briefcase or laptop bag) and fit under the seat in front of you. If your items don't fit in the overhead bin or under the seat, they may need to be checked. Your carry-on:

- Shouldn't exceed **22 x 14 x 9 inches** (including handles and wheels)
- Must fit in the sizer at the airport

Musical instruments are also considered a carry-on item and must fit in the overhead bin or under the seat in front of you.

You are allowed to bring a quart-sized bag of liquids, aerosols, gels, creams and pastes in your carry-on bag and through the checkpoint. These are limited as follows:

Checked Luggage

Please double check which airline we are taking for this particular trip. Checked baggage may not be calculated in your trip cost, so if an airline charges you for an additional or checked bag, you are responsible for the associated fee on both your departing and returning flights.
